### A FEW TESTIMONIALS...

“I’m a single father and was recently diagnosed with leukemia. The medication that was prescribed costs more than \$16,000 per month. Through the program, I was able to get access to the medication for free!”

“I live in an assisted living facility and was paying \$370 month through the pharmacy. I called to see if they could help me and they were able to get my medications for only \$50 a month. This program is such a God-send!”

“I am thrilled that this company exists!! I was taking medicine for my cystic acne. Painful bumps all over my face, back, and chest. I called around to pharmaceutical companies looking for help with the cost of medicine. I finally got referred to this program after 16 other companies rejected me. Thank God for Anji! I got my medicine that was \$800 a month for \$25. Way better!!! Thank you sooo much, I am spreading the word.”
